25X1	the unit consisted of three batteries, which were equipped with horse-drawn vehicles prior to 1950. After that date, the one-axle rubbertired short-barreled guns were towed by half-track vehicles fitted with rubber-tired wheels on the front axle. The vehicles had seats for the driver, the assistant driver and six men of the gun crew. <sup>2</sup>
40	Prior to April 1950, there was an installation called ammunition factory southwest of Fagaras. Prior to late 1951, personnel from Selistat (3 36/3 71) was quartered there.
25X1	The armunition factory was
25X1 25X1	located in a wooded area, on a surfaced road branching off to the south from the highway to Sibiu (R 35/R 20), about 2 km distant from this highway. In April 1950, the workers of the factory were trucked daily to Pagaras for their meals.  of the aumunition factory, and flare signals were seen there at night.  a firing range was located south of the ammunition factory.
5.	Prior to September 1951, the Infanterie Kaserne in the southeast sector of Fagaras quartered Rumanian troops. The installation was located in an engle formed by the main road leading to Stalin and the road leading from the railroad station to the town. Marching soldiers armod with rifles and wearing olive-drab uniforms, lace choes and wrapped leggings were repeatedly seen near this installation, Notor vehicles were also observed.
6。 25X1	Prior to late September 1951, the fortress in Fagaras quartered a Rumanian troop unit.  the Fortress housed a Rumanian recruiting office. Prior to September 1951, Rumanian units in company strength were repeatedly seen marching through the town.
25X1 1。 25X1	Comment. This data confirm previous information 25X1
25X1 2.	Commont. The presence of mountain artillery in Malchin is confirmed.  Frime movers are reported for the first time.
25X1 3。 25X1	
25X1 և. 25X1	Comment. The presence in Fagaras of infantry units is confirmed. 25X1
